AESTHETIC SERVICES

JESSICA BERGQUIST
LEAD MEDICAL AESTHETICIAN

Jessica Bergquist is an awarded, celebrity aesthetician. Jessica studied at Catherine Hinds Institute of Esthetics in Massachusetts. Prior to NicholsMD, she was an aesthetician in Manhattan for seven years.

At NicholsMD, she has become famous for her hands-on facial massage and her gentle yet effective custom facials that yield natural, radiant results to clients of all ages. Jessica holds certificates in chemical peels, microcurrent technology, and microdermabrasion.

CASSIE JONES
MEDICAL ASSISTANT AND LICENSED AESTHETICIAN

Cassie Jones is a licensed medical aesthetician on both our NicholsMD and SkinLab teams. Cassie studied at the New York School of Esthetics. She holds certifications in advanced treatments such as microdermabrasion, chemical peels and Gua Sha facial sculpting.

At NicholsMD, patients love coming to Cassie for her specialty in acne-treating facials. Her vast product knowledge makes her excellent at putting together skincare regimens for all skin types and tones.

At NicholsMD of Greenwich, your comfort and care is our priority. Our boutique provides you with the most exclusive personalized care from board-certified dermatologist Dr. Nichols and her professional staff.

NicholsMD of Greenwich is conveniently located in close proximity to the Greenwich Train Station, Downtown Greenwich, and Westchester County, NY. NicholsMD of Greenwich is only 40 minutes by train or car from New York City!

KIM NICHOLS, MD, FAAD

Kim Nichols, MD, FAAD is a Harvard-trained, board-certified dermatologist that treats both medical and cosmetic skincare concerns. She has been recognized worldwide for her artistic expertise in administering injectables which yield natural-looking results, helping her patients to look and feel their best.

FACIALS

AGE-DEFENSE FACIAL

Diamond tip microdermabrasion, anti-aging facial massage, and LED light therapy are combined in this facial for ultimate collagen stimulation.

GENTLEMAN'S FACIAL

This customized facial for men focuses on deep cleansing, extractions, exfoliation, and hydration.

NICHOLSMD SIGNATURE FACIAL

This signature facial is the ultimate Trifecta. By the end of the treatment, your skin will be exfoliated and glowing from a light acid peel, hydrated from our oxygen facial, and calmed by a soothing LED Light Therapy treatment.

OXYGEN FACIAL

Oxygen under light pressure aids delivery of age-defying ingredients into the skin while giving off a cooling and calming effect. This powerful combination will leave your skin looking younger, brighter, and more luminous.

PURIFYING FACIAL

This facial includes diamond tip microdermabrasion for exfoliation, a deep cleanse, extractions, high frequency currents, and a detoxifying masque to help draw out impurities. As a finishing touch, LED light therapy is used to help reduce inflammation and kill acne-causing bacteria.

SEAWEED FIRMING FACIAL

This facial uses natural Seaweed and Wakame Kelp extracts that rejuvenate the skin at a cellular level, stimulating collagen and elastin synthesis in the skin.

TEEN FACIAL

Let us address your teen's concerns with a customized gentle facial that will speed up improvement of their acne. Extractions and LED light are included to help clean pores and reduce inflammation.

THE *J-GLOW* EXPERIENCE

This power-house facial combines a mechanical exfoliation to remove dead skin, microcurrent to lift and sculpt facial muscles, and an oxygen infusion under LED light to hydrate and boost collagen.

THE BOUTIQUE UPLIFT FACIAL

Experience ultimate relaxation with this luxe facial. With a focus on gua sha techniques and uplifting face, neck, and décolleté massage, this facial helps to de-puff, lift, and sculpt the face, as well as aid in lymphatic drainage.

TREATMENTS

MICROCURRENT

This treatment uses completely safe and painless low-level electrical impulses to repair damaged skin, stimulate collagen and elastin production, and contour, uplift, and tone the face as a whole.

MICRODERMABRASION

This exfoliating treatment uses a coarse-tipped wand in a non-invasive way to remove superficial surface layers of skin and help get rid of dark spots for a bright, youthful, and even skin tone.

CHEMICAL PEELS

ADVANCED CORRECTIVE PEEL

A powerful blend of acids in this peel work together to help smooth fine lines, refine the appearance of pores, and diminish discoloration.

GEL GL PEEL

Mild yet effective, this light acid peel combines several acids that work to hydrate, retexture and brighten skin.

PIGMENT BALANCING PEEL

This peel helps to even out skin tone, improving pigment-related issues such as photodamage and acne scarring.

PORE-REFINING PEEL

This 20% salicylic peel helps to kill acne-causing bacteria and revealing a brightened, more even skin tone.

TCA SMART PEEL

Our strongest chemical peel, the TCA peel goes deeper to help smooth texture, fine lines, refine pores, diminish stubborn discoloration, and brighten skin.
